# GAME TIME

1. Form five groups!
2. Each group is going to work out a puzzle about 12 people and their jobs.
3. Take an A3 sheet and a set of clues.
4. First, use the clues to help you find out what each person's name is and what language they speak. Fill this in on the A3 sheet.

# GAME TIME

5. Now, use the rest of the clues AND the grid on the A3 sheet to help you figure out what each person's job is.
6. Each person has only one job. Each job is only performed by one person.

NOMI	BENDEORA	PESKISADOR	SIOR	SOLDADU
ARNOLD		X		X
BERNARD	X	✓	X	X
CLEMENTINE		X		X
DOLORES		X		✓

Clue #1:

Arnold ngka soldadu.

Clue #2:

Clementine sa sibrisu ngka soldadu.

Clue #3:

Bernard sa sibrisu peskisador.

BECAUSE EACH PERSON ONLY HAS ONE JOB, WE KNOW BERNARD CANNOT SIMULTANEOUSLY BE BENDEORA, SIOR OR SOLDADU.

NOW, WE'VE RULED ARNOLD, BERNARD AND CLEMENTINE AS SOLDADU, SO DOLORES MUST BE THE SOLDADU.

BECAUSE EACH JOB IS ONLY PERFORMED BY ONE PERSON, WE ARE NOW SURE THAT ARNOLD, CLEMENTINE AND DOLORES CANNOT BE PESKISADOR.
