# Bringku Siblings Poker

1. Form a circle and take a card.
2. The card on your head is your alkunia and your birth position in that family. People with aces are oldest, followed by people with 2s, etc.
3. In the circle, we'll take turns asking yes/no questions using what we have learned in L1 and L2 to work out which alkunia you have and your birth position in the family, e.g.
  1. Yo sa alkunia alkunia kopas?
  2. Yo kanyong di yo sa familia?
  3. Yo mas grandi di [otru studanti sa nomi]?
4. The winning kazaporta is the first kazaporta that works out their birth order correctly.

# Osulinggu

Na

, nus ja prendeh...

kantu is preferred in the middle  
of the sentence.

Bos teng kantu krengkrensa?

# Bringku Kantu preguntu

1. Each person writes a number in words related to their family (e.g. the age of their mother, the number of siblings they have, their house number) on their scrap paper in big numbers. Everyone holds their number in front of them.
2. Going around the circle, everyone takes turns to try to ask each person questions to which the number the person has written on their scrap paper is the answer. Each person should be asked a maximum of 3 questions per turn.
3. You need to answer all questions, even the incorrect ones. You can write incorrect questions on their paper as they are asked so that they are not repeated.

# Bringku Figurah fila-filu

1. On their handout, create imaginary names for your imaginary children, assign them a birth order and assign them imaginary characteristics based on the adjectives you have learned.
2. Once both you and your partner are done, tell each other the names of their imaginary children and the adjective words you have used.
3. Take turns to ask questions about your partner's family and try to match the adjectives used to your partner's imaginary children, as well as their birth order, using the questions you have learned.
