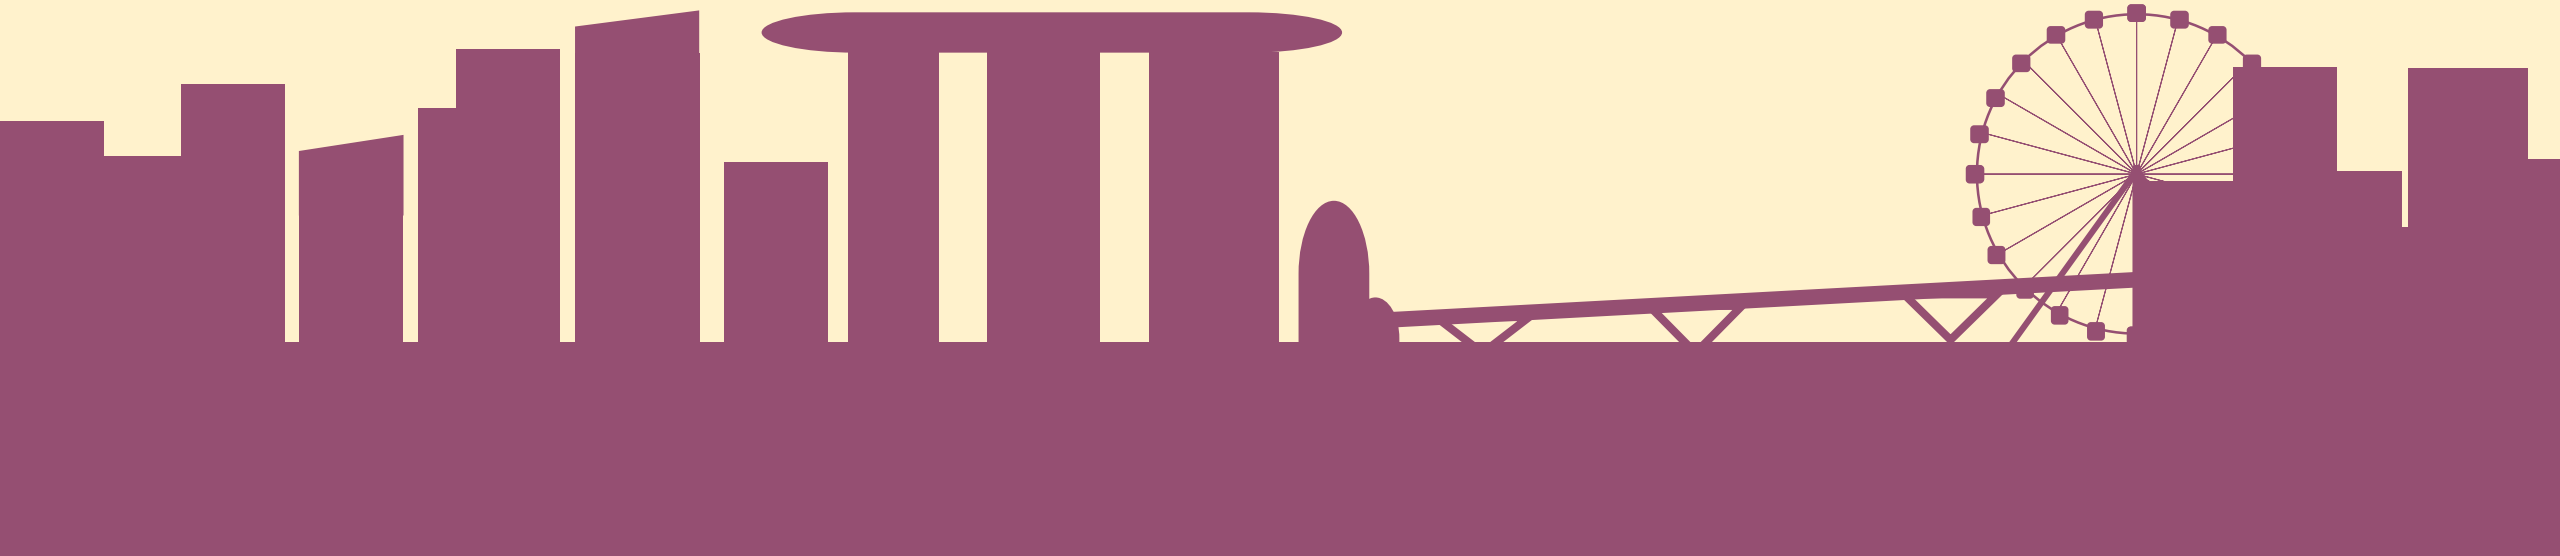
Lesson 7



Breakout 1: Guess who works as what

1. Write down on a piece of paper how many spouses, children, grandchildren, siblings, parents and grandparents your family currently has.
2. Decide how many of one particular occupation your family has, and who they are.
   e.g. Yo sa familia teng 2 marineru.
3. Everyone else has to guess who the marineru are in your family.

Breakout 1: Battleship

1. We'll put everyone in pairs.
2. One person (the more tech-savvy between the two of you) goes to http://en.battleship-game.org/
3. Select "friend" under Opponent and "classic" under Fleet Type.
4. Give the other person the link that the application says to send to them.
5. Both of you can drag the boxes on the screen to move your ships around!

Breakout 1: Battleship

1. You're now in command of five ships (the boxes).
2. You need to figure out where your partner's ships are before they figure out where yours are.
3. Each turn, pick a grid reference and call it in Kristang. Use the second grid to track where you've hit your opponent by clicking on the screen.
